Helps you manage the MD8005 system, such as USB
debugging, Stay awake, HDCP checking and so on.

About tablet
Display the information about MD8005, such as
product status, model number, firmware version, Build
number and so on.

39

Chapter 4   Troubleshooting

If the device does not function as it is expected, please try the following steps.

The device is not responding or can't be turned on.

- Reset the device by pressing the **Reset** button. The device will be forced shutdown if it is on and you are required to restart the device again.
- Battery has been fully depleted. Please charge the device via USB or USB AC Adapter.

Battery Life seems short

- The operating temperature is below 5℃, this is due to the characteristics of battery and not a malfunction.
- The battery is not used for prolonged period. Please recharge the battery of the device again
- The battery is not fully charged. Please charge the device for 4 hours.
- The battery needs to be replaced. Please consult the authorized dealer for service.

The device can not be operated during USB connection

- The device cannot be operated while it is connected to PC.
- At status bar, flick upwards to display a Ongoing list, then select "**Turn off USB storage**" to resume operation.

40

Maintenance

- If Tablet does get wet, turn off Tablet immediately. Wait for Tablet to dry completely before turning on again.
- Clean the screen with a soft cloth; be careful not to wipe it with anything abrasive. When carrying your Tablet in bag, keep Tablet in the protecting case to avoid scratches.
- If Tablet needs service, please consult the authorized dealer through the contact information provided in the warranty card. Faulty service may void the warranty.

Certification information

On FCC
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's   authority to operate the equipment.

This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined

by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be colocated or operating in conjunction with any other antenna or transmitter.

WARNING: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THE DEVICE. ANY SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

On CE

$C\epsilon$ The symbol means that the unit complies with European safety and electrical interference directives.
