Display the information about MD7007C, such as product status, model number, firmware version, Build number and so on.

41

Developer options
Helps you manage the MD7007C system, such as USB debugging, Stay awake, HDCP checking and so on.

About tablet

If the device does not function as it is expected, please try the following steps.

The device is not responding or can't be turned on.

- Reset the device by pressing and hold the **Power** button for 8-10seconds. The device will be forced shutdown if it is on and you are required to restart the device again.
- Battery has been fully depleted. Please charge the device via USB or USB AC Adapter.

Battery Life seems short

- The operating temperature is below 5℃, this is due to the characteristics of battery and not a malfunction.
- The battery is not used for prolonged period. Please recharge the battery of the device again
- The battery is not fully charged. Please charge the device for 4 hours.
- The battery needs to be replaced. Please consult the authorized dealer for service.

The device can not be operated during USB connection

- The device cannot be operated while it is connected to PC.
- At status bar, flick upwards to display a Ongoing list, then select "**Turn off USB storage**" to resume operation.

Maintenance

- If Tablet PC does get wet, turn off Tablet PC immediately. Wait for Tablet PC to dry completely before turning on again.
- Clean the screen with a soft cloth; be careful not to wipe it with anything abrasive. When carrying your Tablet PC in bag, keep Tablet PC in the protecting case supplied to avoid scratches.
- If Tablet PC needs service, please consult the authorized dealer through the contact information provided in the warranty card. Faulty service may void the warranty.

Audio: MP3/WMA/APE/FLAC/AAC/AC3/WAV
Photo: JPG, PNG, BMP, GIF, TIF
Video: MKV(H.264 HP)、AVI、RM/RMVB

Connectivity
Data transfer: micro USB 2.0 slave + host , USB
dongle (3G)
HDMI : Micro HDMI jack
Audio: 3.5mm audio jack
Record : Microphone
Storage: Micro SD Card

Miscellaneous
Built in speaker
G sensor
Web Camera : Front camera-0.3 million pixels, Rear
camera - 2million pixels
Voice recording
Vibration actuator
Clock / Date
Real time battery indication

Battery life
Reading – more than 6 hours
Music – up to 20 hours(with backlight off)
Video- more than 4.5 hours
Web browsing : more than 4.5 hours
Standby time : 7 days

Charging
Power: DC 5.0V, 2.0A
Duration: 4 hours (approx)

Physical properties
Dimension: 197.8 X 124.4 X 10.5 (11.1mm)
Weight: 319g (approx)

Certification information

On FCC
Any Changes or modifications not expressly approved
by the party responsible for compliance could void the
user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1)
This device may not cause harmful interference, and
(2) this device must accept any interference received,
including   interference that may cause undesired
operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC
radiation exposure limits set forth for an
uncontrolled environment .

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

  Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is   encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

WARNING: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY

UNAUTHORIZED MODIFICATIONS TO THE DEVICE. ANY SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

On CE

$C\epsilon$ The symbol means that the unit complies with European safety and electrical interference directives.
